

Dear MEDICAL PROVIDER:

Our mutual patient continues to have significant arthritic symptoms in spite of our conservative management and is considering surgical treatment options, including TOTAL KNEE ARTHROPLASTY under an anticipated SPINAL anesthetic.

I have asked our patient to contact your office for medical examination, and any specialized testing or procedures which you feel are necessary to evaluate the patient fully. Should you perform ANY testing, communication, in the form of FAXED COPIES, is greatly appreciated. Please be aware that we will complete pre-operative testing in our office **only** if these tests are not performed by your office or are out of date per hospital guidelines.

Your assistance in assuring our patient is medically optimized pre-operatively is invaluable.

For your convenience we have included a form which might facilitate the communication process.

Thank you for allowing us to participate in the care of YOUR patients. We will keep you apprised of our patients progress.

Sincerely,

John R. Moore, IV
